ABOUT ME

I am a graduate of SMK Roudlotul Muftadiin Jepara (2023), majoring in Audio Video Engineering (TAV). I have a strong focus on maintenance and repair of audio equipment, with a solid understanding of basic electronic programming and control systems. I am knowledgeable in occupational health and safety (K3) and experienced in troubleshooting and repairing household electrical devices.

EDUCATION

SMK Roudlotul Muftadiin (2020–2023)

During my studies at SMK Balekambang Jepara, I learned basic electronics, audio and video systems, and electrical measurements. I gained experience in installation, maintenance, troubleshooting, and repair of electronic devices. I also developed skills in Arduino programming, IoT design, and circuit simulation using Proteus, along with an understanding of Occupational Health and Safety (K3).

WORK EXPERIENCE

CV Berkah Teknik | Electronics Technician

As an Electronics Technician, I collaborated with various clients as part of a team to repair household electronic devices and electric motors (dynamo's) at a playzone. My responsibilities included maintenance and repair services for small businesses and individual customers.

SKILLS

- Repair and Maintenance of Household Electronic Devices
- Audio Equipment Repair
- Electronic Programming
- Proficient in Proteus and CodeVision Software
